

Your outsourced SEO department

You sell it. I deliver all of it under your name, including the fixes. No SEO hire, no developer time, no client ever knows I exist.

Top 3% Top Rated Plus on Upwork	\$100K+ earned on Upwork	5,300+ hours delivered	40+ clients, 10+ years
---	------------------------------------	----------------------------------	----------------------------------

What I deliver

- **Audit + Fix Sprint:** full technical audit, then the top 10 fixes implemented on the site
- **Monthly technical and on-page SEO:** fix batches, titles and metas, internal links, schema
- **Local SEO:** Google Business Profile, posts, citations and directories, city pages
- **Content:** AI-ready blog posts with brand images, refreshes of old posts
- **AI search visibility:** getting clients cited in Google AI Overviews and ChatGPT
- **Reporting:** monthly, unbranded or in your template

How white-label works

1. You send the site and access through your own admin account.
2. I audit it and deliver the report in your branding.
3. You approve. I implement: backup first, change log after.
4. Monthly work runs on a written scope with one report a month.
5. I talk to you only. I never contact your client.

Results I can show (clients anonymized, dated screenshots available)

Client	Result
Canadian HVAC company	Reached #1 in Google's local pack nationwide for "hvac company". 6,989 ranking keywords, 720 at position 1.
US eye care practice	Organic clicks +140% in six months while average position improved from 17.4 to 8. Cited 621 times across AI engines.
Commercial HVAC, Florida	Found what three earlier audits missed: 44% of revenue pages unreadable to Google. 71 pages entered the index, clicks doubled.
Ontario home services	8,140 impressions inside Google's AI features in three months, per Google Search Console's own report.

Turnaround

Audit	Fix sprint	Ad-hoc requests	Monthly report
3 to 4 working days	5 to 7 working days	within 48 hours	by the 5th of each month

How agencies start

One paid trial: an **Audit + Fix Sprint on one client site, \$400 to \$500**. You see the report, the implementation and how I communicate. If it's good, that client moves to a monthly plan and you add sites at your own pace. Implementation is on WordPress and Elementor; for other platforms your developers get exact instructions.
